Johnson Matthey Platinum Labware Johnson Matthey铂制实验用品

Johnson Matthey platinum labware is offered by Alfa Aesar in a wide variety of vessels, including crucibles and molds for sample bead preparation, standard crucibles, special crucibles, boats, beakers, evaporating dishes and special analysis dishes. A variety of instruments and special forms are offered as well, such as micro chemical apparatus, utensils and electrodes.

由Alfa Aesar提供的Johnson Matthey公司的铂制容器，包括，用于准备焊珠样品的坩锅和模具，标准坩锅，特制坩锅，船形器皿，有口烧杯，蒸发皿以及特制分析皿。另外还提供各类仪器以及特殊形状器具，例如微量化学仪器，容器以及电极等。

The book's "Care and Use" section describes proper techniques for the care and use of platinum. It includes maximum operating temperature guidelines along with a guide to procedures such as ignitions, determination of contaminants in samples, fusions, evaporations, electrolytic operations and glass production. This section also covers conditions and substances to avoid when using platinum labware. The reference data section offers physical property tables for platinum and other related materials. Alfa Aesar's platinum scrap recovery program offers customers a cost effective way to return used material for credit.

本书的“维护与使用”章节介绍了合理的维护与使用铂制品技巧。包括进行如下操作最高操作温度建议，如：引燃，测定样品中的杂质，熔融，蒸发，电解和制备玻璃。本节还包括在何种条件下或使用何种物质时，应当避免使用铂制实验器具。参考数据章节提供金属铂和其它相关材料的物理属性列表。Alfa Aesar向客户提供成本价格的破碎铂制品修复服务。
